ABOUT COMPANY AND PIPELINE OVERVIEW REPORT

Thomson Reuters provides the knowledge, tools, and expertise to help support drug discovery and development activities, IP portfolio optimization, identification of licensing and partnering opportunities, delivery of successful regulatory submissions, and the ability to keep current with the rapidly-changing pharmaceutical and chemical markets, supporting informed, early decisions.

This report was created by Thomson Reuters, using information from *Thomson Reuters Cortellis™ for Competitive Intelligence*; a comprehensive, proven intelligence solution that leverages the most accurate, complete, and widely respected drug pipeline information. From drug discovery and development activities to patent reports, the latest deals, and partnering opportunities, *Cortellis* can provide the confidence to make the most informed business decisions, faster. *Cortellis for Competitive Intelligence* provides accurate and validated information on pharmaceutical and biotechnology companies globally, their drug pipelines, deals, patents, and clinical trials, plus breaking industry news and conference coverage. All contained in one simple, highly intuitive research platform.

Cortellis Company and Pipeline Overview reports are the first in a series of reports that track pharmaceutical and biotechnology companies worldwide. Further report offerings planned to follow include: Company Detailed Pipeline and Company Competitive Landscape reports. All Cortellis for Competitive Intelligence content is subject to the most comprehensive editorial review process available, conducted by scientists, pharma professionals, regulatory experts, and generics specialists. Featuring timely drug pipeline information expertly uncovered and integrated from a significant number of global meetings each year, you'll always be on top of the latest developments.

Chosen by leading life sciences companies, their executives and investors, *Cortellis for Competitive Intelligence* accelerates your deal-making and gives you timely insights on the development landscape.

Discover undiscovered opportunities in drug development and licensing faster with *Thomson Reuters Cortellis™ for Competitive Intelligence*

DISCLAIMER

The information contained in this report is based on sources believed to be correct but Thomson Reuters does not guarantee the accuracy, timeliness, or completeness of this information. Opinions, if any, are those held by the author of any individual report or article at the time of initial publication and do not necessarily reflect the views of Thomson Reuters.

Information in this report on companies is intended for reference use only, and does not constitute a recommendation to buy or sell any particular security or other investment and does not constitute an offer to buy from or sell to any particular investor. Any company or securities mentioned in this report may not be suitable for any particular investor, depending on that investor's financial position and needs.

GLOSSARY

Number of Drugs in Active Development

Number of drugs associated with the company or subsidiary that are currently in active development, i.e. the development status for the drug(s) is one of the following: Discovery, Clinical, Phase I, Phase II, Phase III, Pre-registration, Registered, Launched, or Suspended.

Number of Inactive Drugs

Number of drugs associated with the company or subsidiary that are currently classified as inactive, i.e. where the development status for the drug(s) is one of the following: No Development Reported, Discontinued, or Withdrawn.

Number of Patents as Owner

Number of patents associated with the company where the company is listed as owner; i.e. the relationship type (or way the patent refers to the company) is: Patent Assignee/Owner, Patent owner (not assignee), Licensee for development and marketing, Licensee – marketing only (Distributor), Patent assignee of family member, Inferred assignee.

Number of Patents as Third Party

Number of patents associated with the company where the company is listed as third party; i.e. the relationship type (or way the patent refers to the company) is: Patent assignee (not owner), Ex-Licensee for development and marketing, Ex-Licensee marketing only (Distributor), Customer of technology, Ex-Customer of technology, Patent opponent or infringer, Affiliate organization of inventor, Owner of underlying technology.

Patents summary table

This table represents a summary of the core patent coverage for this company covering Therapeutic EP, US and WO patents since 1990 only.

Number of Deals

A count of deals where the company or one of its subsidiaries is the primary company.

Key Indications

Displays top ten key indications for the company and its subsidiaries based on frequency (indications occurring with high and identical frequency are always included, and this may result in more than ten Key Indications being listed). Includes both indications associated with patents where the company is patent owner and indications associated with drugs in active development. A drug is classified as 'active' if it features on a row (or rows) in the current development status table where the status is one of the following: Discovery, Clinical, Phase I, Phase II, Phase III, Pre-registration, Registered, Launched, or Suspended.

Key Target-based Actions

Displays top ten key target-based actions for the company and its subsidiaries based on frequency (actions occurring with high and identical frequency are always included, and this may result in more than ten Key Target-based Actions being listed). Includes both target-based actions associated with patents where the company patent owner and target-based actions associated with drugs in active development. A drug is classified as 'active' if it features on a row (or rows) in the current development status table where the status is one of the following: Discovery, Clinical, Phase I, Phase II, Phase III, Pre-registration, Registered, Launched, or Suspended. A target-based action is one that is associated with a target.

Key Technologies

Displays top ten key technologies for the company and its subsidiaries based on frequency (technologies occurring with high and identical frequency are always included, and this may result in more than ten Key Technologies being listed). Includes both key technologies associated with patents where the company relationship is patent owner and key technologies associated with drugs in active development. A drug is classified as 'active' if it features on a row (or rows) in the current development status table where the status is one of the following: Discovery, Clinical, Phase I, Phase II, Phase III, Pre-registration, Registered, Launched, or Suspended.

PLEASE NOTE: the financials section where present in the report includes: Share Information, Stock Performance chart (including the consensus recommendation), and Major Shareholders. Financial Performance presents graphical and tabular data on Worldwide Sales, Operating Income and Net Income over time, together with a Quarterly earnings update. Balance Sheet lists Assets, Liabilities and Stockholders Equity, and Forecasts includes: EPS Forecast and Other Forecasts. The data reported in all sections (except share information and major stock holders) are correct as of the publication date of the report (and not the download date). For share information and major stock holders the data is correct for the date shown with these sections

Ophthotech Corp

COMPANY OVERVIEW

Company Name	Ophthotech Corp
Parent Company Name	Ophthotech Corp
Website	http://www.ophthotech.com/
Country	US
Number of Drugs in Active Development	2
Number of Inactive Drugs	2
Number of Patents as Owner	6
Number of Patents as Third Party	0
Number of Deals	6
Key Indications	Age related macular degeneration,Retinopathy,Dry age related macular degeneration,Hippel Lindau syndrome,Wet age related macular degeneration,Diabetic retinopathy,Choroidal neovascularization,Ocular disease,Macular degeneration,Angiomatosis,Aortic aneurysm,Arterial occlusive disease,Neoplasm,Ocular neovascular disorder,Vascular disease,Venous occlusive disease
Key Target-based Actions	VEGF receptor antagonist,PDGF receptor antagonist,Integrin alpha-5/beta-1 antagonist,BTG2 gene inhibitor,PDGF-B ligand inhibitor,VEGF ligand inhibitor
Key Technologies	Drug combination, Ophthalmic formulation, Protein fusion, Antibody fragment, Cell delivery system, Chimeric monoclonal antibody, Directed prodrug therapy, Formulation preservation, Intravenous formulation, Monoclonal antibody, Peptide, Peptidomimetic, Polynucleotide sequence

COMPANY PROFILE

SUMMARY

Ophthotech Corp develops therapies for back-of-the-eye diseases.

FINANCIAL

In February 2014, Ophthotech raised net proceeds of approximately \$55.5 million in a follow-on public offering of common stock.

In February 2014, Ophthotech commenced an underwritten public offering of 1,900,000 million shares. At that time, the company expected certain shareholders to grant the underwriters a 30-day option to buy up to 285,000 additional shares, the company would not receive any proceeds from the sale of shares by stockholders; later that month, the underwritten public offering of 2,285,714 shares were priced at \$31.50 per share and the underwriters were granted an option to buy up to 342,857 additional shares. Later that month, the public offering of 2,628,571 shares was closed. The underwriters fully exercised their 30-day option to purchase 342,857 additional shares.

In September 2013, Ophthotech announced the public offering of 7,600,000 shares of common stock priced at \$22.00 each. The underwriters were given a period of 30 days to purchase up to 1,140,000 additional shares of common stock at the public offering price, less the underwriting discount. Ophthotech's common stock has been approved for listing on the NASDAQ under the ticker symbol 'OPHT'. Later in September 2013, Ophthotech closed the IPO of 8,740,000 common stock shares, including full exercise of the underwriters' option. In November 2013, the company reported that it had raised \$192 million in the IPO and began trading from September 25, 2013.

In August 2013, Ophthotech filed a registration statement on Form S-1 with the US SEC for a proposed initial public offering of its common stock.

In May 2013, Ophthotech closed the first of three equal tranches of a \$175 million financing, which comprised \$125 million royalty funding and \$50 million Series C preferred stock financing from Novo A/S. In January 2014, the company received \$41.7 million in a second tranche. In February 2014, the company expected to receive \$41.7 million in a potential third tranche, based upon a further patient enrollment milestone.

In December 2009, Ophthotech raised \$30 million from a series B financing.

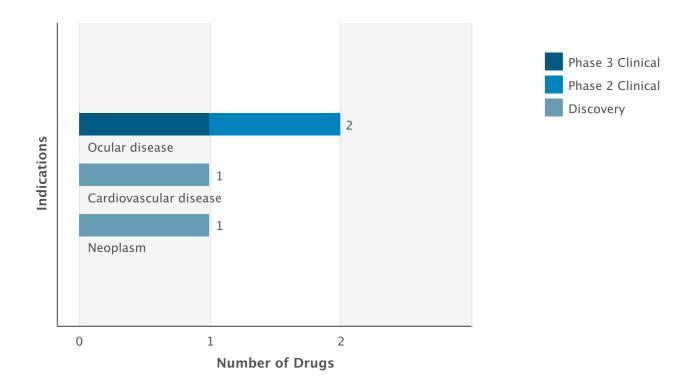

In August 2007, Ophthotech raised \$36 million from a series A financing.

PRODUCT PORTFOLIO DRUGS

PLEASE NOTE: Highest status refers to highest development of that drug for one of the active companies

Fovista

Drug Name	Fovista
Key Synonyms	Fovista
Originator Company	Archemix Corp
Active Companies	Novartis AG, Ophthotech Corp
Inactive Companies	Eyetech Inc, Archemix Corp
Highest Status	Phase 3 Clinical
Active Indications	Wet age related macular degeneration, Retinopathy, Hippel Lindau syndrome
Target-based Actions	PDGF receptor antagonist, PDGF-B ligand inhibitor
Other Actions	Ophthalmological agent, Anticancer
Technologies	Oligonucleotide, PEGylated formulation, Ophthalmic formulation, Biological therapeutic
Last Change Date	09-Jul-2014

ARC-1905

Drug Name	ARC-1905
Key Synonyms	Zimura
Originator Company	Archemix Corp
Active Companies	Ophthotech Corp
Inactive Companies	Archemix Corp
Highest Status	Phase 2 Clinical
Active Indications	Age related macular degeneration, Dry age related macular degeneration
Target-based Actions	Complement C5a receptor antagonist
Other Actions	Complement cascade inhibitor
Technologies	PEGylated formulation, Ophthalmic formulation, Small molecule therapeutic
Last Change Date	14-May-2014
